CANADIAN UROLOGICAL ASSOCIATION
ASSOCIATION DES UROLOGUES DU CANADA

A MESSAGE FROM THE CUA PRESIDENT

MESSAGE DU PRÉSIDENT DE L'AUC

Our review of the past will help shape our actions for the future. The CUA has attained its present stature as a consequence of the historical events that have taken place since its inception. Our 70th anniversary is a fitting time to reminisce about our past, celebrate our accomplishments and consider the future of our Association.

For the past 70 years, the CUA has been driven forward by the commitment and spirit of volunteerism of many urologists from across the country. It has been the vision of these many members that has brought the CUA along an amazing journey, as evidenced in the pages of this historical rendition of the path of the Canadian Urological Association, from past to present. At each point along this path, maintaining relevance and value to our members has been the CUA's undisputed top priority.

Our Association began in 1945 through the collaboration of our pioneering members, whose fundamental understanding of the benefit of forming a national urological kinship was critical to the CUA's inception. Over the years the importance of corporate memory was realized as being integral to our ongoing growth; consequently, the CUA centralized its organizational structure into one corporate office. CUA corporate memory and history are analogous and their importance to our Association is indisputable.

It is with tremendous pride and pleasure that I introduce to you this publication on the history of the CUA. I invite you to browse through these pages and marvel at the evolution of our Association over the past 70 years.

Dr. J. Stuart Oake
President, CUA 2014-2015
Ottawa ON

Ce retour sur le passé contribuera à orienter nos actions à l'avenir. L'AUC a forgé sa renommée à partir des événements historiques qui ont eu lieu depuis sa création. Notre 70^e anniversaire représente un moment propice pour se rappeler ce qui est derrière nous, célébrer nos exploits et réfléchir à l'avenir de notre association.

Au cours des 70 dernières années, l'AUC a évolué grâce à l'engagement et l'esprit de bénévolat de nombreux urologues de partout au pays. C'est la vision de ces nombreux membres qui a fait faire à l'AUC son incroyable cheminement, comme en font foi les pages de ce compte rendu historique de l'Association des urologues du Canada, d'hier à aujourd'hui. À chaque étape de ce cheminement, assurer la pertinence et la valeur de l'association pour les membres a toujours été sans conteste la priorité absolue de l'AUC.

Notre association a été créée en 1945 grâce à la collaboration de membres pionniers qui avaient compris l'avantage de former un organisme national regroupant les urologues. Au fil des ans, l'importance de la mémoire organisationnelle a été reconnue comme une partie intégrante de notre croissance continue, et l'AUC a donc centralisé sa structure organisationnelle par la formation d'un bureau central unique. La mémoire organisationnelle et l'histoire de l'AUC sont analogues, et leur importance pour l'association est incontestable.

C'est avec une immense fierté et un grand plaisir que je vous présente cette publication sur l'histoire de l'AUC. Je vous invite à la feuilleter et à vous émerveiller devant l'évolution de notre association au cours des 70 dernières années.

D'J. Stuart Oake
Président de l'AUC pour 2014-2015

A MESSAGE FROM THE CUA SECRETARY

MESSAGE DE LA SECRÉTAIRE DE L'AUC

Since becoming Secretary of the CUA, I have often wondered about the background behind many of its current practices. However, up to the point of working on this book, many of those questions remained unanswered. Those who work with me know that I derive great pleasure from making the puzzle pieces of a story fit together. Therefore, I admit that I enjoyed having a justification to look through all the CUA Minutes in an attempt to reconstruct the history, gathering answers to many of my own questions along the way.

It was interesting to note that many of the issues current to the CUA are not new. Throughout the years there is ongoing mention of the difficulties in obtaining accurate data regarding manpower, the challenges of documenting the history of urology in Canada, the desire to maintain all subspecialty groups within the CUA, and the quest to ensure the representation of both university and community-based urologists.

This history of the CUA is largely based on the minutes archived from past semi-annual Executive/Board meetings and Annual General Meetings. Therefore, for the early years, where there are no archived minutes, there is minimal history to report. I am still hopeful that somewhere there is an unopened box containing these missing treasures. I am also very appreciative of Dr. James W. Wilson (Senior), who, during his term as Historian, took the initiative to obtain portrait photos of our earliest Past-Presidents while there was still opportunity, so we would have them for just such an occasion. This compilation is bound to contain some errors, which may reflect the fallibility of past Secretaries or this current one. Additionally, some liberties had to be taken along the way to make the story fit. If you identify any errors, first forgive me and then provide me with corrections, such that the next edition of our history may be more accurate.

I hope that you will enjoy scrolling through the history of your Association. Perhaps a few of your own lingering curiosities are addressed within. Finally, I suggest that at the next Annual Meeting you look around you and recognize that you are in the presence of a number of Past-Presidents and other volunteers who have served you and your Association well. I know that I will be attending this year's Past-President's Dinner with new insight and appreciation.

*Dr. Karen J. Pssooy
Secretary, CUA 2012-2016

A MESSAGE FROM THE CUA HISTORIAN

MESSAGE DE L'HISTORIEN DE L'AUC

Canadian urology has a rich and telling history. As Historian of the Canadian Urological Association (CUA), I have had the opportunity to review a large collection of historical documents and to come across valuable artifacts. These documents and objects have been too often overlooked and forgotten, but jewels like documents dating as far back as 1929 are available to you CUA Members!

As early as 1929, the Canadian urology community was very dynamic and participated in the Canadian Medical Association (CMA) Meeting as a section. From the very beginning, it was clear that urology set itself apart as a specialty with its own goals and aspirations. In 1945, the CUA was formally established under the presidency of Dr. Pearson. Until 1948, the CUA held its meetings in conjunction with the CMA. From its inception, the CUA also had close ties with the British Association of Urological Surgeons (BAUS); this explains why there were some joint meetings in the beginning. Ever since 1949, the CUA has held its meeting in June and here we are today at our 70th!

The CUA has certainly come a long way since its incorporation in 1998. There have been 69 Presidents, with an annual increase in the number of Board members who have worked on a volunteer basis in the expanded activities of the Association. The CUA's achievements can be measured by the fact that the Association now has over 1100 members, including International and Associate Members. The Annual Meetings initially had no particular schedule but later a rotation was established from east to west and central Canada. Over the years, the CUA has awarded Honorary Membership to 29 worthy individuals as well as life achievement CUA Awards (established in 1980) to 26 CUA members.

In 1977, the Canadian Urological Association Scholarship Foundation (CUASF) was incorporated and the Foundation has provided substantial scholarships to prospering Canadian urologists.

In 2007, the Association proudly founded its own journal, the Canadian Urological Association Journal (CUAJ). Prior to that, the CUA endorsed the CJU (from 1994-2007). As of today, the CUA has produced 58 topics in English and French for its Patient Information Brochures serving both its members and their patients. In 2007, an Office of Education was launched and the CUA was granted an accreditor status from the Royal College of Physicians and Surgeons of Canada. Over the past 8 years the CUA has accredited over 100 programs and with the Annual Meeting the Association continues to meet Members' educational needs. Since the creation of the Office of Education the CUA has also broadened its scope and has consolidated relationships with organizations such as the American Urological Association (AUA) and the European Association of Urology (EAU).

With the charge of expanding activities beyond the Annual Meeting and serving its Members and their patients, the CUA has truly become The Voice of Urology in Canada.

It is a great honor and privilege to serve and be a member of this wonderful organization.

Of interest/D'intérêt

- Annual dues = \$30 (CUA operations) (1969-1975)
- As there was no Annual General Meeting in 1968, items in need of a vote, such as Membership ratification, were circulated as a ballot, along with the Fall Newsletter
- The 1969 Annual Meeting served as a “double meeting”, held over four days, causing a “heavy loss” financially
- Passed motion: That the CUA will financially support the development of a bank of multiple choice questions for the 1970 RCPSC Urology Exam (Ultimately, the RCPSC did not require this funding)

Of interest/D'intérêt

- Passed motion: That the CUA have a central or permanent secretary (*enacted in 2003 [current]*)
- Training, Education & Evaluation Committee and the Executive oppose the RCPSC proposal to remove MCQs from the Urology Examination
- Training, Education & Evaluation Committee negotiates with the American Board of Urology (ABU) regarding their recent unilateral decision to disallow Canadian trainees to sit the ABU certification examinations – Final result is that only Canadian trainees who have a medical degree from Canada or US may qualify to sit the ABU, but requirements set make it difficult for any Canadian trainees to qualify (1987-1996)
- The RCPSC considers the possibility of “Surgical Oncology” as a new surgical specialty. The CUA counters that urologic oncology will always be a part of Urology and that “Surgical Oncology” should be a branch of General Surgery and not represent all surgical disciplines
- Economics & Manpower Committee reports a good balance between graduating residents and projected retirements
- Clarified that CUASF scholarships be exclusively for potential academic urologists, and not PhD students in Urology departments (*current*)
