

C O P Y

The first meeting of the Section of Urology in the Canadian Medical Association was held in the Windsor Hotel, Montreal, June 1929. The Chairman was Dr. F. S. Patch and there were 37 present at the meeting.

The following papers were presented:

1. Traumatic Rupture of the Urethra - G. S. Foulds
2. Unilateral Fused Kidney - C. R. Crompton
3. Ureteral Calculi Removed by Cystoscopic Methods - N. Hogarth
4. Changes in the Posterior Urethra - C. H. Hair
5. Blood Pressure in Prostatic Cases - Magnus Seng
6. Herninephrectomy for Tuberculosis in a Horseshoe Kidney - Oscar Mercier
7. Bladder Tumours - Robin Pearse
8. Renal Tuberculosis - Ralph Powell
9. Diagnosis of Renal Tuberculosis with the X-Ray - J. C. McClelland

These papers were very interesting and were discussed briefly.

Luncheon was served in the Windsor Hotel after slight refreshments were served as the guests of Dr. Patch.

A short business session followed.

Dr. Patch reported that there would be no Canadian Medical Association meetings in Winnipeg in 1930 as the British Medical Association was supplying the programme.

Moved by Dr. Paul, seconded by Dr. W. W. Jones that we hold a meeting in Toronto next year at a time that the local committee shall find convenient. Carried.

Moved by Dr. Pearse, seconded by Dr. Lanterman that each member who has presented a paper before this meeting give reprints to each member of the Section of Urology to allow them to be bound as an edition of transactions. Carried.

Moved by Dr. Seng, seconded by Dr. Powell that Dr. W. W. Jones be Chairman of the Section for the next meeting. Carried.

Moved by Dr. Pearse, seconded by Dr. Mercier that Dr. J. C. McClelland be secretary of the Section for the next meeting. Carried.

A Programme Committee was named as follows:

A. I. Willinski
G. S. Foulds
Ralph Powell
H. E. Paul

Moved by Dr. Mercier seconded by Dr. Foulds that the secretary send to each urologist a list of the section. Carried.

The meeting then adjourned.

F. S. Patch
Chairman,

J. C. McClelland
Secretary

Vancouver,
June 24th, 1931

The second meeting of the Section of Urology was held in Vancouver, June 24th, 1931. This section met apart from the General Session in the Wedgewood Room of the Vancouver Hotel. A few members were present from the East, more from the Prairie Provinces and most from the cities of the Pacific Coast. There were also present a number of urologists from the Pacific Coast States. The attendance was about 75.

The two papers of interest to the paediatricians attracted a number of doctors interested in that specialty, including Dr. H. F. Helmholtz whose discussion was deeply appreciated.

At the close of the session a business meeting was held. Dr. Robin Pearse was elected President and Dr. J. C. McClelland Secretary. After the meeting the members adjourned for luncheon given by the local urologists.

The programme was as follows:

1. Caudal Block Anaesthesia in Urology - Dr. S. A. Wallace, Kamloops
2. The Need for More Thorough Urological Examination in Conditions Affecting the Urinary Apparatus in Infants and Children - J. D. McEachern, Winnipeg
3. Pyronephrosis in Infancy - Emerson Smith, Edmonton
4. Bladder Tumours: Treatment and Results - Robin Pearse, Toronto
5. Peritoneal Adhesions: Their Effect Upon the Urinary Tract - F. S. Patch, Montreal
6. Symposium on Clinical and Radiological Aspects of Pyelography; intravenous and retrograde + Drs. Patch and Ritchie

DISCUSSION:

Dr. McEachern in his paper demonstrated clearly
